

American Carbon Block's Classic filters are manufactured using activated coconut shell carbon to provide the highest level of chlorine taste and odor reduction. When the application calls for it, the Classic filter is superior in acting as a sediment and activated carbon filter. This filter provides exceptional performance at a competitive price.

Each block is wrapped with a polypropylene outer layer and netting to prevent premature clogging of the carbon block. All materials and components are FDA-compliant, making them ideal for use in residential, food service and commercial drinking water applications.

Features & Benefits

- Most economical solution for chlorine taste and odor reduction
- Filtering of organic solvents - 5 μ and 10 μ versions available
- High adsorptive capacity and efficiency
- Activated coconut carbon for purer filtration
- Ideal for both pre- and post-RO filtration
- Effective sediment filter
- Competitively priced vs. other filters

**Based on Internal manufacturer's testing*

Filter Cartridge has been Tested and Certified by NSF International Against NSF/ANSI Standard 42 for material requirements only.

| Part Number | Nominal Dimensions | Chlorine Capacity* | Initial Pressure Drop* (PSI) |
|-------------|--------------------|--------------------|------------------------------|
| CB2510CTO | 2.5"x10" | >8000gals@1GPM | <5psi@1GPM |
| CB2520CTO | 2.5"x20" | >16,000gals@2GPM | <5psi@2GPM |
| CB4510CTO | 4.5"x10" | >16,000gals@3GPM | <6psi@3GPM |
| CB4520CTO | 4.5"x20" | >32,000gals@6GPM | <8psi@6GPM |

Important Notice

Performance claims are based on a complete system. The filter must be used in an approved system and operating according to the system's specifications. Each application must be followed in order for the filter to perform properly.

Warnings

American Carbon Block filters are to only be used with microbiologically safe water. The filter is not designed to kill or remove bacteria or viruses. All information is based on data believed to be reliable. This information is offered for verification and evaluation only and is not intended to be a warranty.
